Incoma Dental Surgery in Madrid Spain - Doctor Beatriz Galindo Martens Dentist

Tel: (0034) 915545405 WhatsApp: (0034) 695921640 Email: info@beatrizgalindo.com

English speaking dentist in Madrid with cutting edge technology, professional high quality service and maximum fully personalised patient care.

Many people cannot imagine quite how the appearance of your teeth can affect your self-esteem. Today healthy aligned teeth, along with an attractive smile, play an important social role and are an attribute for a lifetime. They represent youth, dynamism and success - a better first impression when meeting new people, whether in the business world or in your private life.

To accomplish this Dr. Beatriz Galindo Martens in the Incoma dental clinic in Madrid Spain offers a full range of dental services, ranging from restorative dentistry, orthodontics, dental implants, periodontics, dental aesthetics and advanced cosmetic dental treatments. The Incoma clinic employs the very latest technological advances in dentistry: digital radiography, intraoral camera, LED whitening light and plasma rich in growth factors.

In the Incoma dental clinic Dr. Beatriz Galindo and her team of dedicated professionals offer modern 21st century dentistry, ready to serve our patients with a friendly and professional service. Advanced techniques and state of the art materials are offered at affordable prices and always with the possibility of a range of easy financing plans.

The Incoma dental practice prides itself on the kind of warmth of treatment that you can only get from a personalised, individual service that cannot be offered by franchises or the low cost dental practices. Incoma and Dr Beatriz Galindo guarantee you the peace of mind that you can only get from a truly experienced and professional who will always be there both for you and for your family. Patients can relax knowing that all operations are performed or personally supervised by Dr. Beatriz Galindo, who is not only one of Spain's leading dentists but also a well respected university professor for the master's course in dental surgery and implants at the Universidad Alfonso X in Madrid.

Treatments offered by the Incoma dental surgery and Dr. Beatriz Galindo include:

Periodontics
Endodontics
Pediatic dentistry
Maxillofacial surgery
Orthodontics
Dental implants
Dental prosthetics
Oral pathology

and also cosmetic dentistry such as:

Dental whitening
Veneers / porcelain crowns
Modeling with composite aesthetic contouring

Dental rejuvenation
Cosmetic surgery of the gums
Veneers / temporary crowns

Did you know that...?

The smile is the key that opens more doors
Today top dentists using advanced techniques have the means to perform any treatment without causing discomfort or pain.
The tooth enamel is the hardest substance in the body.
Over 50% of headaches are caused by dental and joint problems.
Halitosis or bad breath originate from tooth decay or gum disease
Onychophagia or nail biting habit can damage the teeth.
If you experience dental pain that increases with cold, hot or at bedtime is because a tooth has a cavity that is damaging the pulp
Any bleeding in the gums is gingivitis, commonly known as gum disease.
Oral hygiene - tooth brushing and flossing should not be delayed more than 15 minutes after every meal.
If you feel ear noise when opening or closing the mouth this is due to joint problems that must be addressed.
Any tooth that is lost must be replaced to prevent displacement of the other and joint problems in the future.
Many of the problems that seem to be neck cervical joint problems are actually due to the mouth and dental issues that need to be resolved by a dentist.

Other services provided by the IMTRA Incoma Clinic

The other services of the IMTRA Incoma clinic include:

Traumatology and Orthopedics

The Madrid Institute of Traumatology (Instituto Madrileño de Traumatología - IMTRA -

Incoma) has a team of specialists led by Dr. Enrique Galindo Andújar, providing the highest level of medical services to patients in the field of orthopedic surgery and traumatology.

Arthroscopy

Arthroscopy is a minimally invasive surgical procedure. It allows us to inspect, diagnose and treat any damage to a joint. The advantages over traditional open surgery are that the joint does not have to be fully opened up.

Fully Open High Field Magnetic Resonance Imaging MRI scanning

Treatments with resonance results in just 48 hours. IMTRA Incoma in its clinic in Madrid, Spain offers fully open high field MRI (Magnetic resonance imaging) which offers unparalleled picture quality and greater patient comfort. With a field of 1.0 Tesla, superior even to some closed resonances, IMTRA Incoma is able to obtain very high quality images, almost without noise, in only about 20 minutes, whilst the patient is sitting comfortably. This fully open MRI scanner combines the latest cutting edge technology in image quality (the images obtained have a definition like a conventional closed MRI: 1 Tesla) together with maximum comfort for the patient because he or she can just sit comfortably in a chair outside the machine, and so only entering the limb to be analyzed within the receiving antenna. IMTRA Incoma obtains very accurate images of the arm, including the elbow, wrist and hand, or of the leg, including the knee, ankle and foot getting the image quality and consistency you would get with a more powerful magnet, thanks to the patient moving less and as the antenna better fits around the joint.

HBOT Hyperbaric Oxygen Therapy

Hyperbaric medicine, also known as Hyperbaric Oxygen Therapy (HBOT), is the medical use of oxygen at a level higher than atmospheric pressure, in a hyperbaric chamber. The hyperbaric chamber that we have in our medical center, is one of the most modern monoplace chamber. It is at the disposal of athletes and patients. The medical and sports uses of the hyperbaric chamber are:

- Decompression sickness (divers, aviator, etc.)
- Treatment of sports and athletic injuries and sports performance enhancement:
 - o Prevention and treatment of injuries caused during sports and exercise;
 - o Physical preparation of the athlete, sportsman, sportswoman for high level performance;
 - o Increase exercise tolerance;
 - o Treatment of and speeded up recuperation from overtraining (when the intensity of the exercise has exceeded the recovery capacity of the athlete);
- Treatment of cases of delayed healing of wounds, fractures and other injuries;
- Carbon monoxide or cyanide poisoning;
- Sudden hearing loss, central retinal artery occlusion, ischemic encephalopathy, etc.;
- Gas gangrene.

The benefits of the hyperbaric oxygen therapy are:

- Hyper oxygenation (restoring oxygen to depleted cells and tissues);
- Help to clean toxic gases;
- Assisting in the growth of new blood vessels;
- Formation of collagen and new tissue growth;
- Enhanced white blood cell's increased ability to destroy bacteria and fungi;
- Reduce swelling, inflammation, bruising, infection, scarring and recovery time from surgery and injury.

Human Growth Factors Treatments

Treatment with growth factors specialist clinic in Madrid Spain for treatments for Chronic tendonitis, sports injuries, cartilage injuries, fibromyalgia, myofascial syndrome, fractures and degenerative joint lesions. Dr Enrique Galindo Andujar and the IMTRA Incoma clinic in Madrid Spain carries out treatments with growth factors in the following cases: Chronic tendinitis Being able to reverse in some cases local inflammatory processes and thus also reduce pain. It gives very good results in Achilles tendonitis, plantar fasciitis and epicondylitis (otherwise known as tennis elbow). Sports injuries Such as muscle or tendon injuries and ligament injuries of any joint, reducing downtimes of professional and amateur athletes, sportsmen and sportswomen. Cartilage injuries - Pain trigger points In conditions such as fibromyalgia or myofascial syndrome, where there is widespread muscle pain. Fractures Contributing positively to the consolidation of the fractured bone. Degenerative joint injuries Contributing positively in the case of degenerative joint injuries.

Physiotherapy and Rehabilitation

The IMTRA Incoma physiotherapy and rehabilitation center in Madrid has vast experience in this sector, achieved after 20 years of experience. The clinic works with private patients, patients from the leading medical and mutual insurance companies in Spain and patients referred from the Spanish Social Security. All our physiotherapists are fully qualified and certified professionals and have extensive individual and group session timetable availability slots that can be adapted to best suit your professional and personal schedule.

Physio-Pilates / Pilates

For private patients we offer exclusive personalized treatment programs and now also Pilates and PhysioPilates sessions including after-work Pilates classes on weekday evenings.

Clinical Psychology

Clinical psychology, adult, child, anxiety, couple, addictive behaviors, phobias, stress, depression, low self-esteem, eating disorders, obsessions, problems of adjustment to bereavement, personality disorders, fears, jealousy, shyness, phobias, anxiety, depression, behaviour problems, social skills. Wellness and conflict resolution - Clinical psychology IMTRA Incoma's specialist psychologist José Luis Muñoz Blanco helps individuals, families and couples solve problems and resolve conflicts. His principal areas of specialisation include: • Adults: - Anxiety, phobias, stress, depression, self-esteem, eating disorders, obsessions, problems of adjustment to bereavement, personality disorders. • Children and teenagers: - Fear, jealousy, shyness, phobias, anxiety, depression, behavior problems, social skills. • Couples: - Decision-making, communication, conflict resolution, negotiation skills. • Addictive behaviour.
