© Edward Olive para IMTRA Incoma Dr Enrique Galindo Andújar 915545405 [www.incoma.info](http://www.incoma.info)

### **Services provided by the IMTRA Incoma Clinic**

Services of the IMTRA Incoma clinic include:

#### **Traumatology and Orthopedics**

The Madrid Institute of Traumatology (Instituto Madrileño de Traumatología - IMTRA - Incoma) has a team of specialists led by Dr. Enrique Galindo Andújar, providing the highest level of medical services to patients in the field of orthopedic surgery and traumatology.

#### **Arthroscopy**

Arthroscopy is a minimally invasive surgical procedure. It allows us to inspect, diagnose and treat any damage to a joint. The advantages over traditional open surgery are that the joint does not have to be fully opened up.

#### **Fully Open High Field Magnetic Resonance Imaging MRI scanning**

Treatments with resonance results in just 48 hours. IMTRA Incoma in its clinic in Madrid, Spain offers fully open high field MRI (Magnetic resonance imaging ) which offers unparalleled picture quality and greater patient comfort. With a field of 1.0 Tesla, superior even to some closed resonances, IMTRA Incoma is able to obtain very high quality images, almost without noise, in only about 20 minutes, whilst the patient is sitting comfortably. This fully open MRI scanner combines the latest cutting edge technology in image quality (the images obtained have a definition like a conventional closed MRI: 1 Tesla) together with maximum comfort for

the patient because he or she can just sit comfortably in a chair outside the machine, and so only entering the limb to be analyzed within the receiving antenna. IMTRA Incoma obtains very accurate images of the arm, including the elbow, wrist and hand, or of the leg, including the knee, ankle and foot getting the image quality and consistency you would get with a more powerful magnet, thanks to the patient moving less and as the antenna better fits around the joint.

### **HBOT Hyperbaric Oxygen Therapy**

Hyperbaric medicine, also known as Hyperbaric Oxygen Therapy (HBOT), is the medical use of oxygen at a level higher than atmospheric pressure, in a hyperbaric chamber. The hyperbaric chamber that we have in our medical center, is one of the most modern monoplace chamber. It is at the disposal of athletes and patients. The medical and sports uses of the hyperbaric chamber are:

- Decompression sickness (divers, aviator, etc.)
- Treatment of sports and athletic injuries and sports performance enhancement:
  - o Prevention and treatment of injuries caused during sports and exercise;
  - o Physical preparation of the athlete, sportsman, sportswoman for high level performance;
  - o Increase exercise tolerance;
  - o Treatment of and speeded up recuperation from overtraining (when the intensity of the exercise has exceeded the recovery capacity of the athlete);
- Treatment of cases of delayed healing of wounds, fractures and other injuries;
- Carbon monoxide or cyanide poisoning;
- Sudden hearing loss, central retinal artery occlusion, ischemic encephalopathy, etc.;
- Gas gangrene.

The benefits of the hyperbaric oxygen therapy are:

- Hyper oxygenation (restoring oxygen to depleted cells and tissues);
- Help to clean toxic gases;
- Assisting in the growth of new blood vessels;
- Formation of collagen and new tissue growth;
- Enhanced white blood cell's increased ability to destroy bacteria and fungi;
- Reduce swelling, inflammation, bruising, infection, scarring and recovery time from surgery and injury.

### **Human Growth Factors Treatments - Plasma Rich in Growth Factors (PRGF) (PRP)**

Treatment with growth factors specialist clinic in Madrid Spain for treatments for Chronic tendonitis, sports injuries, cartilage injuries, fibromyalgia, myofascial syndrome, fractures and degenerative joint lesions. Dr Enrique Galindo Andujar and the IMTRA Incoma clinic in Madrid Spain carries out treatments with growth factors in the following cases:

- Chronic tendinitis Being able to reverse in some cases local inflammatory processes and thus also reduce pain. It gives very good results in Achilles tendonitis, plantar fasciitis and epicondylitis (otherwise known as tennis elbow).
- Sports injuries Such as muscle or tendon injuries and ligament injuries of any joint, reducing downtimes of professional and amateur athletes, sportsmen and sportswomen.
- Cartilage injuries - Pain trigger points In conditions such as fibromyalgia or myofascial syndrome, where there is widespread muscle pain.
- Fractures Contributing positively to the consolidation of the fractured bone.
- Degenerative joint injuries Contributing positively in the case of degenerative joint injuries.

### **Physiotherapy and Rehabilitation**

The IMTRA Incoma physiotherapy and rehabilitation center in Madrid has vast experience in

this sector, achieved after 20 years of experience. The clinic works with private patients, patients from the leading medical and mutual insurance companies in Spain and patients referred from the Spanish Social Security. All our physiotherapists are fully qualified and certified professionals and have extensive individual and group session timetable availability slots that can be adapted to best suit your professional and personal schedule.

### **Physio-Pilates / Pilates**

For private patients we offer exclusive personalized treatment programs and now also Pilates and PhysioPilates sessions including after-work Pilates classes on weekday evenings.

### **Clinical Psychology**

Clinical psychology, adult, child, anxiety, couple, addictive behaviors, phobias, stress, depression, low self-esteem, eating disorders, obsessions, problems of adjustment to bereavement, personality disorders, fears, jealousy, shyness, phobias, anxiety, depression, behaviour problems, social skills. Wellness and conflict resolution - Clinical psychology IMTRA Incoma's specialist psychologist José Luis Muñoz Blanco helps individuals, families and couples solve problems and resolve conflicts. His principal areas of specialisation include: • Adults: - Anxiety, phobias, stress, depression, self-esteem, eating disorders, obsessions, problems of adjustment to bereavement, personality disorders. • Children and teenagers: - Fear, jealousy, shyness, phobias, anxiety, depression, behavior problems, social skills. • Couples: - Decision-making, communication, conflict resolution, negotiation skills. • Addictive behaviour.
